

Medicaid

### **Overview of the Indiana Medicaid Program**

Medicaid is a health care assistance program for low-income individuals that is jointly financed by the state and federal governments. Each state administers its own program within federal guidelines. Thus, state programs vary in eligibility criteria, services covered, limitations on services and reimbursement levels. In Indiana, Medicaid is administered by the Family and Social Services Administration, Office of Medicaid Policy and Planning (OMPP). During state fiscal year 2001, the federal financial share of Indiana's Medicaid program was approximately 62%, while the state's was about 38%.

### Who is Covered by Indiana Medicaid?

Medicaid was created to provide health care to certain low-income individuals. State Medicaid programs are required by the federal government to cover certain groups, while other groups are covered at the option of the state. To be eligible for Medicaid, a person must belong to one of the groups described below and meet certain financial criteria:

Members of Families with Children. Families meeting the income and resource standards for the Temporary Assistance to Needy Families (TANF) program are also eligible for Medicaid whether or not they actually receive TANF cash assistance.

<u>Children and Pregnant Women</u> Pregnant women and children under age nineteen with family incomes up to 150% of the federal poverty level are eligible for Medicaid. Prior to July 1, 1998, children from age one through age five were not eligible if their family incomes exceeded 133% of the federal poverty level and children aged 6 through 18 were not eligible if their family incomes exceeded 100% of the federal poverty level. The income standard and continuous coverage were adopted by the Indiana General Assembly in Public law 58-1998 which is "Phase I" of Indiana's implementation of the federal Children's Health Insurance Program.

Aged. Individuals aged sixty-five or older are eligible for Medicaid if they meet certain financial criteria. The financial criteria are more lenient if one spouse is in a nursing facility, while the other lives in the community. In addition, persons eligible for Medicare Part A may qualify to have Medicaid pay their Medicare premiums, copayments and deductibles as a Qualified Medicare Beneficiary (QMB), a Qualifying Individual (QI), a Qualified Disabled and Working Individual, or a Specified Low Income Medicare Beneficiary (SLMB).

Blind and Disabled. The definition of "blind" for eligibility purposes is the same as the definition used by the federal Social Security Administration. To be eligible in the disability category, a disabled person must have a physical or mental impairment, disease or loss that appears reasonably certain to continue throughout four or more years of the individual's life without significant improvement and that substantially impairs his/her ability to perform labor or to engage in a useful occupation. Blind and disabled recipients may also be eligible for the Medicare-related programs described above, if they are eligible for Medicare.

Indiana is one of only four states that have financial criteria that are more restrictive than required by the Federal Social Security Administration guidelines, which determine eligibility for Supplemental Security Income (SSI); Retirement, Survivor, and Disability Insurance Program (RSDI).

Although adults and children in low-income families make up approximately three-quarters of all Medicaid beneficiaries, the aged, blind, and disabled account for 68.8% of SFY01 spending.

### What Services are Covered Under Indiana Medicaid?

State Medicaid programs are required to provide certain basic services to members in order to qualify for federal matching funds. In addition, states may also receive matching funds for a variety of optional services approved by the federal government. As of state fiscal year 2001, Indiana provided 27 of 34 possible optional programs making Indiana's one of the most comprehensive Medicaid programs in the country. Smoking cessation was added as a new Indiana Medicaid optional benefit in FY 2000.

### **Mandatory Services:**

- Outpatient hospital services
- Rural health clinic services
- Nursing facility and home health services for those age 21 and over
- Family planning services and supplies
- Physicians' services and medical & surgical services of a dentist
- Inpatient hospital services
- Laboratory and x-ray services
- Nurse midwife services
- Early/periodic screening diagnosis & treatment for those under age 21

### Optional services:

- Podiatrists' services
- Optometrists' services
- Chiropractors' services
- Psychologists' services
- Medical social workers' services
- Intermediate care for the mentally retarded
- Clinical services
- Dental services
- Physical therapy
- Occupational therapy
- Speech, hearing, and language disorders
- Prescribed drugs
- Prosthetic devices
- Eyeglasses
- Respiratory care services

- Diagnosis services
- Screening services
- Preventive services
- Rehabilitative services
- Inpatient hospital services for those above age 65 in institutions for mental diseases
- Inpatient psychiatric services for those under age 21
- Nursing facility services for those under age 21
- Emergency hospital services
- Transportation services
- Case management services
- 'Hospice care
- Smoking cessation

**Note:** We allow services for private duty nurses, nurse anesthetists' services, Christian Science sanitariums, and Christian Science nurses; but are not able to classify claims by these individual groupings. For many years, no Christian Science sanitariums have resided in Indiana.

### **Hoosier Healthwise Overview**

#### What is Hoosier Healthwise?

Hoosier Healthwise is a health insurance program for Hoosier children, pregnant women, and low-income families. The program is offered through the State of Indiana's Family and Social Services Administration. It has been operating since 1994, providing comprehensive health care services to Hoosiers at varying ages and varying income levels. The goals of Hoosier Healthwise are to:

- Ensure access to primary and preventive care services
- Improve access to all necessary health care services
- Encourage quality, continuity and appropriateness of medical care
- Provide medical coverage in a cost effective manner

As of July 1, 1998, the Hoosier Healthwise for children program was expanded to cover more uninsured Hoosier children. Now all children, from birth through age 18 are eligible for the Hoosier Healthwise Program if their family meets the income guidelines. Adults eligible for Hoosier Healthwise include those receiving Temporary Assistance to Needy Families (TANF) and pregnant women with incomes at or just above the income guidelines.

### **How to Enroll in Hoosier Healthwise**

Families can enroll in Hoosier Healthwise at their local Division of Family and Children (DFC) office or they can go to a conveniently located enrollment center, such as a hospital or community health center. In addition, families can order an application form through the mail, complete the application, and mail the single page (2-sided) form to:

Hoosier Healthwise for Children P.O. Box 7213 Indianapolis, Indiana 46207-7213.

To order an application by mail, to get a list of enrollment centers in local communities or for general information, families should call the Hoosier Healthwise Helpline at 1-800-889-9949.

Education about and enrollment into Hoosier Healthwise is facilitated by:

- Face to face and/or telephone contact with a Benefit Advocate (BA) located in DFC county offices or a DFC authorized enrollment center; or
- Telephone contact with Benefit Advocates or Hoosier Healthwise Helpline Representatives located in the Helpline's central office.

### What Health Benefits are Covered?

Hoosier Healthwise provides medical benefits designed to meet all of the health care needs of Hoosier Healthwise members, with a special focus on children's health care needs as they grow from infants to young adults. Benefits include primary and preventive care (like well-baby/well-child care and regular check-ups), doctor visits, hospital stays, prescription drugs, vision and dental care, mental health care, and other important health care benefits.

### **Hoosier Healthwise Program Design**

### Delivery Systems and Health Plan Networks

Hoosier Healthwise is made up of two delivery systems:

- 1. Primary Care Case Management (PCCM). This plan network is referred to as PrimeStep.
- Risk-Based Managed Care (RBMC). This delivery system is made up of Managed Care Organizations (MCO). The current plan networks are Managed Health Services (MHS), Harmony Health Plan, and IU Health Plan (MDwise).

In the Hoosier Healthwise program, members choose a doctor in order to promote a doctor-patient relationship and a medical home for the member's health records. Eligible members residing in any Indiana county will be required to enroll with a Primary Medical Provider (PMP) in either the PCCM or RBMC delivery system. Members who enroll with a PMP in the RBMC delivery system will be a member of that PMP's MCO network. The MCO network will coordinate most of their medical services.

The doctor chooses which network to join when he/she enrolls in the Hoosier Healthwise program and the information is available to members in a Primary Medical Provider Directory. Even if the doctor switches health plans, the member stays with the doctor unless the member elects to change to another doctor in order to remain in a preferred network.

The policies outlined here apply to both the PCCM and RBMC components of Hoosier Healthwise. RBMC MCOs will have additional policies and provider manuals that apply to RBMC contract providers.

### Children's Health Insurance Program

In 1997, Congress passed the Children's Health Insurance Program (CHIP) as part of the Balanced Budget Act. The Act allotted money to each State to develop a program to expand health coverage to uninsured children.

Indiana's 1998 General Assembly passed Senate Enrolled Act 19, which, effective July 1, 1998, increased standard Medicaid eligibility for all children up to 150% of the federal poverty level (about \$25,000 for a family of four). The name of the CHIP expansion in Indiana is the Hoosier Healthwise Program. A second component of the expansion took place on September 1, 1998, when continuous eligibility began. The purpose of continuous eligibility is to provide children with one year of continuous enrollment in Hoosier Healthwise regardless of fluctuations in the family's income.

Indiana's 1999 General Assembly passed the second phase of CHIP, effective January 1, 2000. The second phase of CHIP, called Hoosier Healthwise Package C - Children's Health Plan, focuses on families with income levels within 150-200% of the federal poverty level.

### Managed Care Organizations (MCOs)

For purposes of the Risk-Based Managed Care (RBMC) and Primary Care Case Management (PCCM) delivery systems of Hoosier Healthwise, the State of Indiana is divided into three regions: North, Central and South. Within the RBMC system, the OMPP, through a competitive bid process, may award up to two MCO contracts per region.

There are 3 health plan networks in RBMC: Managed Health Services, Harmony Health Plan, and IU Health Plan, which identifies its Hoosier Healthwise network as MDwise.

Within the PCCM delivery system, OMPP has contracted with Lifemark Incorporated to administer delivery system operations on behalf of the State of Indiana, Lifemark has named the PCCM delivery system PrimeStep.

Contracted RBMC MCOs assume financial risk for developing and managing a health care delivery system that arranges for or provides Hoosier Healthwise services. The State pays the MCO a monthly capitation fee for each enrolled member.

### **Responsibilities of Primary Medical** Providers (PMPs)

The Hoosier Healthwise encourages eligible members to select a Primary Medical Provider (PMP) to provide. through an onaoina relationship, preventive and primary medical care, as well as PMP authorization (referral) for most medically necessary specialty treatment.

program patient/PMP Dubols Crawford The PMP, or a clinically qualified designee. must be available 24-hours a day, seven days a week, and must assume management of the member's health

and medical needs. OMPP policy requires the 24-hour PMP access number be randomly monitored by the

networks to assure compliance with this responsibility. A PMP must be a physician specializing in:

- 1. General Practice,
- 2. Family Practice,
- General Pediatrics.
- General Internal Medicine.
- or Obstetrics/Gynecology (OB/GYN).

Primary care physicians in any setting 20 hours a week over 3 days are eligible to be PMPs and may serve as the PMP for any member within their normal scope of practice.

Physicians who enroll in this program agree to be listed as a Primary Medical Provider in the Hoosier Healthwise Provider Directory.

### PMP's Case Management Function

As part of the case management function, PMPs are expected to provide or authorize most primary and preventive care services. PMPs who authorize another provider to render services must document the referral in the patient's medical record. Some medical services do not require PMP authorization. Members may gain access to these services through self-referral or PMPs may suggest to members how to access these services.

### Process for Physicians to Join Hoosier Healthwise

Physicians interested in becoming PMPs will have the opportunity to meet with a representative from either the PCCM or RBMC delivery systems. When a physician decides to enroll as a PMP, he/she is required to sign either a contract Addendum to the Medicaid Provider Agreement to enroll in the PrimeStep/PCCM delivery system, or a contract with one MCO to participate in the RBMC delivery system. PMPs may enroll with the PCCM delivery system and/or one (1) MCO per region. Specialists may participate in the PCCM delivery network and one or all of the MCOs, but may not enroll as PMPs.

### Providers Not Enrolled as PMPs in Hoosier Healthwise

Medicaid providers not enrolled as PMPs in Hoosier Healthwise either through choice, or because they are not eligible to enroll as a PMP (i.e., specialists) may continue to provide necessary health and medical care to Medicaid covered individuals not eligible for Hoosier Healthwise. These providers may also provide services to Hoosier Healthwise members after receiving authorization from the member's PMP.

### Process for Non-enrolled Hoosier Healthwise Physicians to Participate

With authorization from the member's PMP, any Indiana Medicaid enrolled provider may render services to a Hoosier Healthwise member. Services exempt from the PMP case management function may be provided to Hoosier Healthwise member without the PMP's authorization.

### **Member Services**

The Hoosier Healthwise Helpline is the Member Services line for the Hoosier Healthwise members, and specifically for providers in the PrimeStep/PCCM PMPs network. Members call the Helpline to select a PMP, change a PMP, ask for help to resolve a problem with the program, or for many other reasons. To gain direct access to a Provider Services Helpline Representative, the PrimeStep/PCCM PMPs are encouraged to contact the Helpline and select option 3.

Each MCO must maintain a member services 800 toll free number for members.

### **Provision of Services and Authorization by the PMP**

Primary Medical Providers are expected to provide or authorize most primary and preventive care services unless the service is accessible to the members through the self-referral process.

Medicaid Providers not participating as PMPs in the Hoosier Healthwise program may continue to provide health services to Hoosier Healthwise members after receiving authorization to do so from the member's PMP, or if they are rendering services that do not require PMP's authorization. Only the following self-referral services may be provided to a Hoosier Healthwise member without the PMP's authorization.

- Family planning services
- Chiropractic services
- Podiatric services
- Vision care services (except eye care surgical services)
- HIV/AIDS targeted case management services
- Diabetes self-management training services
- Dental care services (except for services in an acute care setting, e.g., hospital)
- Mental Health Services

## Total Medicaid Claims Payments and Total Recipients State Fiscal Years 1992 - 2001

#### Millions of Dollars

<sup>\*</sup> DSH payments are included in total expenditures from 1991 through 2000. DSH Payments are not included in SFY 2001 expenditures.

Source: DataProbe reports Oct 01/ Nov 01 Office of Medicaid Policy & Planning Note: The data provided from 1996-2000 was revised based on implementation of a new reporting system.

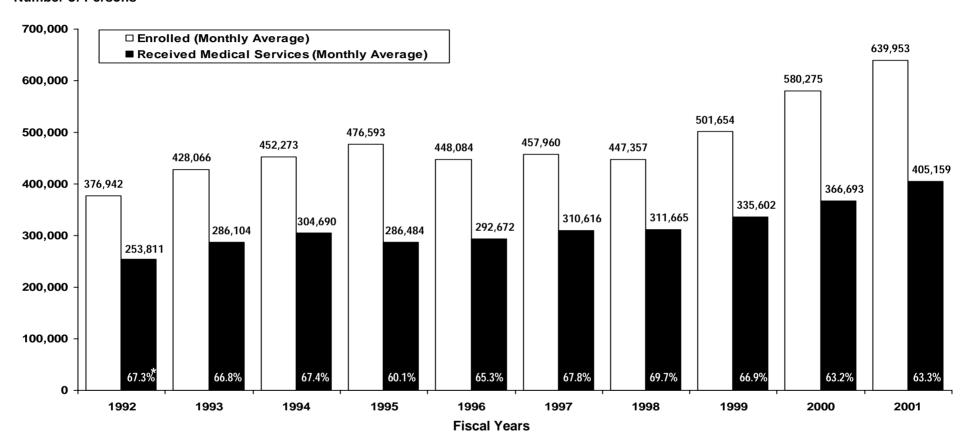

Further enhancements to data improved our ability to distinguish between paid and adjusted claims. There is a net drop in reported recipients, by category, for SFY00, as compared to previous reports.

Due to claims retagging, \$4.6 million in SFY 2000 claims misclassified as belonging to ARCH/590 Programs were reclassified as Medicaid claims. Payments and recipients reflect this change.

## Monthly Average of Persons Enrolled, Compared with Monthly Average of Recipients (Monthly Average)

### State Fiscal Years 1992-2001

#### **Number of Persons**

NOTE: The data provided from 1996-1999 was revised based upon implementation of the DataProbe reporting system. This system, DataProbe, includes retro-active enrollment, MAR does not do this. Recipients are those persons who actually received services, or had capitation payments paid. The recipient average is defined as those persons who had Medicaid claims paid or had capitation payments paid on their behalf for the month. A twelve month average from July to June, during the State fiscal year, is calculated and reported above.

Further enhancements to data improved our ability to distinguish between paid and adjusted claims. There is a net drop in reported recipients, by category, for SFY00, as compared to previous reports.

Medicaid defines the term "Average Monthly Recipients" as the number of enrollees with claims or capitation payments made on their behalf in a given month. This number is summed for a fiscal year and averaged over 12 months.

Medicaid defines the term "Total Annual Recipients" to include any claims or capitation payment for an enrollee at any time within the year. This number will always be higher than the Average Monthly Recipients figure. The same concept is applied to Medicaid enrollment. In this case, anyone deemed eligible to receive Medicaid services, whether or not any were rendered, are counted as an enrollee.

Total	-2.84%	2.68%	10.95%	9.98%	10.07%

Note: The current numbers reported for SFY 1999 have been modified from previous reports to allow for quality improvements in reporting of the "unknown" aid group. These improvements have resulted in the redistribution of expenditures to the appropriate aid group. Disproportionate Share to Hospitals (DSH) payments are not recipient specific therefore they are being grouped with the "unknown" aid group and are not being distributed among the various aid groups as previously. Starting in SFY01 General Hospitals DSH payments are made through Inter-governmental Transfers.

Note: Improvements in claim retagging with updated provider & member data, enabled additional classification.

Almost \$4.6 million of claims for SFY 2000 previously classified as ARCH / 590 Programs are actually Medicaid Claims.

Note: The current numbers reported for SFY 1999 and SFY 2000—have been modified from previous reports to allow for quality improvements in reporting of the "unknown" aid group. Further enhancements to data improved our ability to distinguish between paid and adjusted claims. There is a net drop in reported recipients, by category, for SFY 00, as compared to previous reports. These improvements have resulted in the redistribution of recipients to the appropriate aid group. Due to claims retagging, \$4.6 million in SFY 2000 claims misclassified as belonging to the ARCH/590 Programs were reclassified as Medicaid claims. Payments and recipients reflect this change.

Home Health, Chiropractic Services, Intermediate Care Facilities for the

Mentally Retarded, Podiatrist Services, Dialysis Services, Prosthetic/Orthotic Services, Targeted Case Management, Hospice, Inpatient Psychiatric Services, and School Corporation Services

### MEDICAID ELIGIBILITY OVERVIEW

					<del></del>	
Category	Non-financial Criteria	Typical Family Unit	Monthly Income Limit	Resource Limit	Coverage Type	Eligibility Period
Low Income Families	Dependent Child in home	1 Adult, 1 Child	\$229 (24% of FPL)	\$1,000	Full	6 month review
Pregnant Women	Pregnant	1 Unborn Child, 1 Adult	\$229 (24% of FPL)	\$1,000	Full	Terminates 60 days after delivery
	Pregnant	1 Unborn Child, 2 Adults 1 Child	\$2,207 (150% of FPL)	No limit	Limited to pregnancy related services	Terminates 60 days after delivery
Newborn Children	Newborn Child of a female Medicaid recipient	2 Adults, 2 Children	No Limit	No limit	Full	Until Child turns age 1
Under age 19	Child under age 19	2 Adults, 2 Children	\$2,207 (150% of FPL) 1	No limit	Full	Continuous for 12 months
Aged <sup>2</sup>	Age 65 or older	Married Couple, Individual	Couple \$796, Individual \$531 (Same as SSI standards)	Couple \$2,250 Individual \$1,500	Full	Annual Review
Blind	Blind	Married Couple, Individual	Couple \$796, Individual \$531 (Same as SSI standards)	Couple \$2,250 Individual \$1,500	Full	Annual Review
Disabled	Substantial & lasts at least 4 years	Married Couple, Individual	Couple \$796, Individual \$531 (Same as SSI standards)	Couple \$2,250 Individual \$1,500	Full	Annual Review
Medicare Catastrophic Coverage Act of 1988 (MCCA)	One spouse in nursing facility, one spouse in the community	Married Couple	\$1,452 plus a % of shelter expenses not to exceed \$2,175 for spouse at home.	\$17,400 - \$87,000	Full	Annual Review
Qualified Medicare Beneficiary (QMB) <sup>3</sup>	Eligible for Medicare Part A	Married Couple, Individual	Couple \$968, Individual \$716 (100% of federal poverty level)	Couple \$6,000 Individual \$4,000	Payment of Medicare premiums, deductibles, co- insurance	Annual Review
Specified Low Income Medicare Beneficiary <sup>3</sup>	Eligible for Medicare Part A	Married Couple, Individual	Couple \$1,161, Individual \$859 (120% of FPL)	Couple \$6,000 Individual \$4,000	Payment of Medicare Part B premium	Annual Review
Qualified Individual - 1 <sup>3</sup>	Eligible for Medicare Part A	Married Couple, Individual	Couple \$1,307, Individual \$967 (135% of FPL)	Couple \$6,000 Individual \$4,000	Payment of Medicare Part B premium	Annual Review <sup>4</sup>
Qualified Individual - 2 <sup>3</sup>	Eligible for Medicare Part A	Married Couple, Individual	Couple \$1694 Individual \$1,253 (175% of FPL)	Couple \$6,000 Individual \$4,000	\$3.09 monthly, paid end of year	Annual Review <sup>4</sup>
Qualified Disabled Worker	Lost Medicare Part A due to Earnings	Married Couple, Individual	Couple \$1,935 Individual \$1,432 (200% of FPL)	Couple \$6,000 Individual \$4,000	Payment of Medicare Part A premium	Annual Review

<sup>&</sup>lt;sup>1</sup>Effective July 1, 1998, children age 1 - 5, inclusive, with income between 133% and 150% of the poverty level and children age 6 - 18, inclusive, with income between 100% and 150% of the poverty level became eligible. This expansion was "Phase One" of Indiana's Children Health Insurance Program (CHIP). Children under age 19 in all categories receive 12 months of continuous eligibility without regard to changes in income or other circumstances. Effective January 1, 2000, "Phase Two" of CHIP expanded to include children between 150% and 200% of the poverty level.

<sup>&</sup>lt;sup>2</sup>Income Levels January 2000-December 2000. All income standards (except those for Low Income Families and Pregnant Women -- full coverage) and the MCCA resource limits are increased annually.

<sup>&</sup>lt;sup>3</sup>Income Levels April 2000-March 2001. All income standards (except those for Low Income Families and Pregnant Women -- full coverage) and the MCCA resource limits are increased annually.

<sup>&</sup>lt;sup>4</sup> Applications are approved on a first come, first served basis, until annual federal allotment is expended
